## KING TO CHECK GREEK RIOTING

Warns People Demonstrations Must Come to End.

(By the International News Service.) London, Oct. 18.—After a night and day of rioting, King Constantine is reported in dispatches from Athens tonight to have issued an official warning to the people that demonstrations against the French marines and sailors must end.

In his warning he declared that Greece's fate as a nation hangs in the balance, and that was the reason for his plea.

The Greek government today also sent to the neutral nations an official protest against the landing of armed forces to patrol Athens as a violation of Greek rights.

So violent is the frenzy of feeling against the allies among the Greek royalists that it is feared by the Greek government that not even the King's words will quell the infuriated populace, and grave consequences are likely to result.

Only the prompt intervention of Greek troops prevented a bloody clash between civilians and French marines last night. A group of small boys were shouting insulting epithets at the marines and were arrested by the foreigners. A great crowd immediately congregated, threatening the Frenchmen.

Greek soldiers were hurriedly dispatched to the scene, and by charging in, managed to scatter the crowd.

Other troops were immediately posted throughout Athens and Piræus to prevent further demonstrations.

At a conference with the British minister, King Constantine declared the situation evidently entertained by the allies, that the Greeks would attack the allied army, was utterly groundless and without reason.

**NEW VILLA ACTIVITY ALARMS CONFERENCE**

Americans Insist Carranza Begin Drive Immediately.

(By the International News Service.) Atlantic City, N. J., Oct. 18.—Reports that Pancho Villa has reached the Hearst ranch at Babiçora considerably upset the deliberations of the Mexican peace commission today.

The American delegates emphasized the point that if Villa had penetrated this far north, Carranza must begin his promised drive immediately or it might be necessary for Gen. Pershing to strike again and strike hard.

Senor Cabrera, head of the Mexican delegation, replied that Carranza's new campaign against Villa had already begun and that news of a clash with the Villistas was expected momentarily. He explained that troops were being moved north in relays.

The Americans replied that the present situation had become so grave that it demanded more than promises.

**G. W. U. STUDENT YAWNS; DISLOCATES HER JAW**

Miss Elizabeth Voorhees got sleepy in Prof. George Neely Henning's third year French class at George Washington University yesterday and yawned. She dislocated her jaw.

When called upon to recite, she couldn't, and embarrassed and in pain, she left the classroom, and appealed to a neighboring drugstore, who was unable to force the dislocated bone back into place.

Miss Voorhees then went to Dr. James W. Hart, of 2154 F street northwest, who had to administer ether before he could treat her.

She is now at her home, 3456 Newark street, under order not to yawn, laugh, or talk, and to eat nothing but soup.

Hughes Presented with Stick Made by "Mailplitter."

Kalamazoo, Mich., Oct. 18.—Charles E. Hughes today was presented with a cane made from a walnut rail split by Abraham Lincoln and by him presented to D. S. Walbridge in 1855. Lincoln made the cane and carried it for a time but gave it to Mr. Walbridge when he was stumped at Kalamazoo for Gen. Fremont, the first Republican candidate for President.

**ARGUE OVER BIBLE**

Factions Clash on Use of Scriptures in Schools.

The entrance of religion into the curriculum of the public schools was discussed yesterday by two widely-opposed factions leaders.

At the meeting of the Board of Education, in the afternoon, John D. Bradley, of the Secular League, took exception to a recent ruling of the board which permitted Bible readings as part of the school work.

Last night at the closing session of the Sunday School Institute at Epiphany Church, Rev. Beverly D. Tucker, Jr., of University, Va., cited the fact that religion was the original foundation of most of our institutions of learning.

Following Dr. Tucker's address last night the presiding officer of the Institute, Canon DeVries, stated that although the American college had become so democratized in recent years that the doors of almost every institution were open to all people, the one person ostracized was Jesus Christ.

John B. Lerner, of the Board of Education, refused to listen to the extended statement from John D. Bradley, of the Washington Secular League, protesting against the recent decision of the board sanctioning the custom of hanging the ten commandments on the walls of school rooms and of Bible readings as part of the school work.

"I object to that reading of the statement," I will not listen to it," he said.

**BAKER'S SPEECH HIT BY BRANCH OF D. A. R.**

Reference to Forefathers as Lawless Raiders Brings Protest.

Special to The Washington Herald. New York, Oct. 18.—Organizations of patriotic Americans have been prompt to denounce and protest against the speech of Newton D. Baker, Secretary of War, in Jersey City on Monday night, in which, as a defense of President Wilson's Mexican policy, Mr. Baker likened the lawless raiders of Villa and Carranza to the heroes of the American Revolutionary army.

The Empire State Society of the Sons of the American Revolution, in a mass meeting here, adopted a resolution declaring that "we, the descendants of the patriots of the Revolution, condemn in the strongest terms the unpatriotic language of the Secretary of War."

Louis Annin Ames, president of the society, a Democrat, who has been a staunch supporter of the administration, and a friend of Mr. Baker, said: "The resolution was passed unanimously and embodies my views."

James de La Montagne, treasurer of the State society, characterized Mr. Baker's remarks as "undignified, un-American, unpatriotic, and absolutely untrue."

**GUARDSMEN MUST SERVE FEDERAL COURT DECIDES**

Decision in Massachusetts Affects All Militia Units.

(By the International News Service.) Boston, Oct. 18.—Federal Judges Blinman and Aldrich, with Judge Putnam dissenting, overruled the decision of Federal Judge Dodge, whereby Alexander M. Emerson, who declined to take the Federal oath, was released from military service on a writ of habeas corpus.

The decision affects thousands of militiamen all over the country.

The opinion, as written by Judge Aldrich, says that "the order of the District Court is vacated, with directions that the petitioner be returned to the military company from which he was taken."

The overruling of Judge Dodge's decision gives the authorities power to take into military custody all members of the various State militia companies, who have not taken the Federal oath.

The case of Emerson was regarded as a test case. Emerson was a member of Troop B, of the First Squadron Cavalry, M. V. M., at the time the troops were sent to the border last June. He declined to take the new Federal oath and contended that he was not subject to military orders any longer.

(By the International News Service.) London, Oct. 18.—Italians have won a new success against the Austrians, carrying by a swift and powerful blow, the last Teuton defense line between Cosmagno and Roite in the Mount Pasubio sector.

This success is announced in an official statement reaching here tonight from Rome. The statement further asserts that the Austrian lines north of the summit of Mount Pasubio have been stormed.

Following closely on the announcement that the Somme offensive would be continued throughout the winter, giving the Germans no rest on the western front, is a semi-official report from Milan that Gen. Cadorna, the Italian chief of staff, also plans to keep up his blows against Trieste all winter long.

Thus, the Germans and Austrians will be forced to meet at least two strong offensives, even if the closing in of cold weather prevents the Russians from continuing their drive in Volhynia and Galicia.

The announcement of Gen. Cadorna's intentions comes in a dispatch from Milan, which quotes the semi-official Il Secolo.

"Year down the Austrians," is the watchword on which the offensive will be carried out.

Berlin today makes the charge that the Italians are concealing their losses in their official statements. Reports from Vienna are quoted to the effect that the Carso Plateau during the last two weeks the Italians have suffered a series of "terrible" defeats.

It is in this region that the Italian offensive against Trieste sprang into being, and it is in this region that the capture of Gorizia, the Italians have reported heavy fighting, but no extensive gain has been announced in the last days.

## RUSSIANS HALT TEUTON ATTACKS

Carpathian Offensive Declared Brought to Standstill.

(By the International News Service.) London, Oct. 18.—Repulse of German and Austrian and counter-attacks in Galicia and the halting of the Carpathian offensive south of Dorna Watra are reported by the Russian war office tonight.

On the other hand Berlin announces that despite the most violent efforts the Russians have been unable to advance in Volhynia and that their blows west of Lutsk have resulted in the heaviest losses to themselves.

At one point the Teutonic troops carried a Russian supporting point in a sharp drive, capturing 350 men and a number of machine guns.

The heaviest fighting of weeks is going on in Galicia, the Teutons employing every arm at their command in withstanding the Russian blows. Poison gas and flaming liquids have again been brought into play.

On several sections of this front the Austro-Germans, carrying out the theory that the best defense is a strong offense, have delivered strong blows against the Russian front, but have been unable to penetrate it at any point.

Especially violent fighting is being waged in the Korytnia region, the Germans being on the offensive. Petrograd announces that all their attacks were repulsed.

The Berlin official statement follows: "Front of Prince Leopold of Bavaria: After the costly failure of his strong infantry charges, the enemy limited his activity to a lively fire against the front west of Lutsk. Infantry attacking the Austro-Hungarian positions near Zwyzny northwest of Zaturze, were driven back by our fire into their trenches. The enemy suffered heavy losses."

**\$2,000,000 INDUSTRIAL PLANT FOR DISTRICT**

Corporation Employing Several Thousand Persons Seeking Site Here.

Definite plans for the location of a \$2,000,000 industrial plant in the Capital were presented to Chamber of Commerce officials yesterday.

The new concern is a Tennessee corporation with a \$2,000,000 capitalization, of which half of this amount already is paid in.

It proposes to manufacture on an extensive scale an office appliance already patented and will employ several thousand persons.

Franklin D. T. Moran, of the Chamber of Commerce, met the officials of the corporation and discussed with them available sites. The members said that they had been attracted to Washington by the advantages pointed out for industrial plants in the recent brief filed with the Secretary of the Navy for the location of the government armor plate plant in the District.

A number of sites were tentatively discussed, but no decision was reached, nor will the selection be made until the president of the company arrives in Washington within a few days and a personal inspection of properties can be made.

It was made clear that the District regulations preventing smoke nuisance would not be a hindrance.

Other cities have offered free taxes for a term of years and similar inducements to secure the plant, but a District location is favored largely because the concern expects to do an extensive business with the national government.

**NO HANDSHAKING**

Scratch Prevents President Greeting Crowds.

(By the International News Service.) On Board the President's Train, Syracuse, N. Y., Oct. 18.—President Wilson received an ovation passing through New York State this afternoon and tonight that appeared to be based on genuine political enthusiasm. The size of the crowds which met the train at every stop was limited only to the capacity of the stations.

At Albany fully 5,000 persons made a rush for the private car Mayflower as soon as the train had been brought to a standstill. Mr. Wilson was on the rear platform with Secretary Tumulty and began to shake hands with those nearest him. A moment later it was observed that his right hand was bleeding profusely. A deep cut had been inflicted on the top of the second finger, supposed to be the finger nail of one of the enthusiasts.

Mr. Wilson quickly wrapped his handkerchief about the injured finger and continued to shake hands until the train was in motion again. Later Dr. Cary T. Grayson dressed the wound and announced that it would be unsafe for the President to shake hands any more during the remainder of the trip.

"Packey" McCabe, the Democratic boss of Albany County, climbed over the back of the President's car and imparted the prophecy that the Democratic candidate would get the electoral vote of New York State if New York City could be carried by 5,000 votes. McCabe said he was much stronger in the upper part of the State than the Republicans credited them
